1) PROJECT INFORMATION

Field of expertise related to the topic: Gender Equality in universities and research organizations

Potential contribution to the project: JOANNEUM RESEARCH Forschungsgesellschaft mbH (JOANNEUM RESEARCH) is a business oriented leader of innovation and technology providers. It is linked to a worldwide network and has been providing leading research according to the highest international standard for more than thirty years. With focusing on applied research and technology development, the INNOVATION COMPANY plays a key role in transferring technology and know-how in Styria.

JOANNEUM RESEARCH consists of 7 RESEARCH UNITS:

MATERIALS – Institute for Surface Technologies and Photonics

HEALTH – Institute for Biomedicine and Health Sciences
 DIGITAL – Institute for Information and Communication Technologies

RESOURCES – Institute for Water, Energy and Sustainability
 POLICIES – Institute for Economic and Innovation Research
 ROBOTICS – Institute for Robotics and Mechatronics
 LIFE – Centre für Climate, Energy and Society

JOANNEUM RESEARCH is committed to the ERA objective of promoting gender equality in research and technology. Therefore we are seeking a consortium of research performing and/or research funding organizations for the SWAFS 03 2016-2017 calls to be able to develop a gender equality plan and to make current efforts more sustainable.

The Research unit POLICIES of JOANNEUM RESEARCH has an excellent reputation in the field of gender equality studies in RTDI and is participating in two structural change projects to promote gender equality as evaluator. We can therefore offer not only our expertise in writing successful proposals for such calls but can also support the implementation of gender equality measures with our expertise.

A further possibility would be the involvement in a project as evaluation partner who provides evaluation and implementation advices. Again it would be possible to build on our experiences of previous projects like GARCIA or GENERA (but this would exclude the possibility to act as an implementing partner).

Role in the project:

- Research Dissemination Other
 Training Technology Development
