Successful R&D in Europe 2nd European Networking Event

For the second time, the conference invites researchers and entrepreneurs from North Rhine-Westphalia and partner regions in Europe to find new European R&D partners for FP7 projects. The first event in 2009 was a great success with over 200 participants. In 2010, partner regions are: Belgium, France, the Netherlands, Luxemburg, Poland and Russia. The networking event will be structured in parallel brokerage sessions focussing on three topics:

Information and
Communication
Technologies

Energy

Nanotechnology
and Production
Technologies

The event addresses especially small and medium-sized enterprises and universities. Participants are invited to become involved in established and new technology networks between researchers, entrepreneurs and multipliers related to FP7. Giving a short presentation or finding a partner by talking to decision-makers opens doors for new FP7 projects.

Call for presentations is open until 19th February 2010
under www.frp.nrw.de/network

Programme

- 10:00 **Welcome**
