

Wojciech Lach

Project manager
Department of Coordination and Settlement
of Hydrogen Projects in PKN Orlen

Wojciech Lach is the project manager in the Department of Coordination and Settlement of Hydrogen Projects in PKN Orlen. He is responsible for coordination of the hydrogen projects in Orlen Capital Group. Wojciech also specializes in the preparation of new projects, including project structuring and securing external financing, including Hydrogen Valleys.

In 2020-2022 Wojciech played a role of Project Manager for LOTOS Green H2 Project – 100 MW electrolyser project producing renewable hydrogen for the Gdańsk refinery decarbonization needs. (in 2023 Project received EU notification under CEEAG for 158 EURm state aid support).

From January 2018 to March 2020 Wojciech was a Director of the Innovative Project Office at LOTOS Lab, where he was responsible for managing the area of innovation and co-developed a portfolio of innovative projects in the realm of alternative fuels, hydrogen and energy storage.

Prior to joining LOTOS Group, Wojciech worked for 10 years for leading consulting companies including EY and PwC. Wojciech graduated from AGH University of Science and Technology in Cracow. He also holds the Executive MBA diploma from the Kozminski University in Warsaw.
