

Angela Schultz-Zehden

Managing Director
SUBMARINER Network for Blue Growth EEIG

Angela Schultz-Zehden (MBA, MSc, BSc Economics) is the founder and manager-owner of s.Pro – sustainable projects GmbH and the SUBMARINER network for Blue Growth EEIG.

She has been involved in the development of Integrated Maritime Policy since 2001; having coordinated a multitude of blue projects; being lead author of key documents, guidance notes and action plans on the Sustainable Blue Economy, Maritime Spatial Planning and Multi-Use. Angela has build up the EU MSP Platform and has also been responsible for the design of the EU Baltic Blue Growth Agenda.

Within the SUBMARINER Network she supervises the whole string of initiatives promoting sustainable and innovative uses of marine resources; such as low-trophic aquaculture and product development; implementation of the multi-use concept, improvement of maritime spatial planning and management of marine protected areas. She is the lead manager for the coordination of the Mission Ocean in the Baltic and North Sea Lighthouse Area.

For her work, Angela has received the European Commission award 'Woman of the Year in the Blue Economy 2016'.
