2 – Project Idea

Selected Topic: → **slide nr. 3** [Study-visit - pitching presentation]

Name and subject of the project idea

SPOT Wieluń – County Centre for Sport, Passion, Openness and Tradition, a multifunctional public hub integrating culture, education and sports for the residents of Wieluń County.

Main objectives and innovative aspects

The project aims to create a multifunctional public space managed by the county authority that combines a county library, a multifunctional cultural hall and educational and sports activities responding to the needs of young people and seniors.

Expected results and impacts

The project will not only meet functional needs but will also demonstrate climate adaptation solutions, including the removal of a concrete parking area, elimination of architectural barriers through universal design and the introduction of greenery and blue-green infrastructure.

Impact - Local partners, including a foundation that will operate in the building as well as neighbouring residents and the housing community, are actively involved in the concept and design process.

Demo building identified (if any)

No specific demonstration building has been identified yet.

3 – Expression of Interest

Areas of expertise you bring to the project

Circular economy, social engagement, nature-based solutions, sustainable management of public institutions, spacial planning

Contribution proposed (e.g., technology provider, pilot site)

We have an institution client already engaged in the project (with a pilot site and technology provider), we are searching for partners with expertise in similar implementation projects or partners who will benefit from our knowledge and cooperation . The main challenge is to connect this project into a european level network

Partners sought / Partners already involved

Wielun County, Silesian University of Technology, Pheno Horizon
